

# BULLYING STOPS HERE DAY!

**Date: February 29, 2012**

**Time: 10:00 am**

Join activists around the United States and Canada who will be protesting on Bullying Stops Here Day.

- Let Pepco know it should cease bullying its customers by taking the position that all of its customers must have smart meters.
- Smart meters are not mandatory.
- The US Energy Policy Act of 2005 indicates utilities must get approval from customers before installing smart meters.
- Pepco should allow customers to opt-out of smart meters at no cost to customers.

**Join us to protest in front of Pepco headquarters. The Center for Safer Wireless will provide t-shirts. You bring your signs.**

**For more information contact the Center for Safer Wireless**
